Secretary Guterres:

I pray this letter finds you in good health and spirits. We come to you with Chapter II, Article 4 of Charter of the United Nations and the following U.N. declarations as the basis of this correspondence.

- Universal Declaration of Human Rights (U.N.G.A.R. 217A (III) December 10, 1948)
- Declaration on the Rights of the Child (U.N.G.A.R. 1386 (XIV)(1959)
- Declaration on the Granting of Independence to Colonial Countries and Peoples (G.A.R. 1514 (XV) December 14, 1960)
- Declaration of the Rights of Indigenous Peoples (G.A.R. 61/265 October 2, 2007)

The Moorish Republic is a true democratic republic which consists of a comity of the descendants of the formerly enslaved indigenous peoples of the Americas, and the formerly enslaved Africans kidnapped from the northwestern and southwestern shores of Africa, and brought to the Americas through slavery. We are the descendants of the indigenous people of the United States whom “ordained and established” the constitution for the colonial united States of America. We are the descendants of they whom were later enslaved by the colonial united States, stripped of our land and labeled as “negros”, “blacks”, “coloreds”, and “African-Americans”.

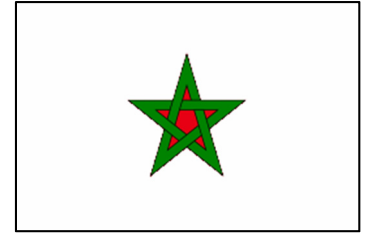

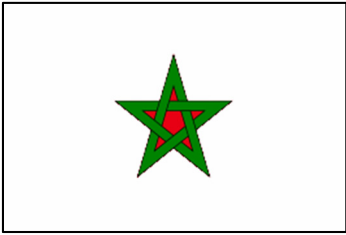

The Moorish Republic of North America

By this letter, we are declaring our Moorish Nationality to the World and seeking U.N. assistance in the global recognition of our Moorish Nationality and the Moorish Republic, pursuant to the several above cited U.N. declarations. We have a Constitution, a Flag, a territory. We have also established a provisional government to take account of our numbers, which are in the millions.

Since 1913, we have been pleading and demanding recognition of our Moorish Nationality. Over the decades, millions of Moorish nationals have made several proclamations of Nationality and status to United States and the colonial states. These proclamations have been met with silence, disdainful responses, and violence. There are an over-abundance of United States court cases in which state that United States does not recognize Moorish Nationality. Even though their own laws prove that we are not citizens of any of the colonial states or U.S. citizens, United States and the colonial united States continuously violate their own laws to hold us in a citizen/chattel property status. This is a blatant violation of their own constitutions and laws, as well as, international standards, the Charter of United Nations and the several declarations.

The world is very aware that, through colonization, the colonial United States stripped our ancestors of their lives, cultures, and histories. Their libraries and records were burned, leaving them unable to pass their histories and cultures to later generations, and leaving our people to search for an identity in a system whose foundation was built upon the physical enslavement of our ancestors, and presently maintained by our psychological, mental, and emotional enslavement.

Enforced ignorance, deliberate mis-education, and fear, for over 150 years, since 1868, mislead our people into believing that we were U.S. citizens with protections of the U.S. constitution. We were never U.S. citizens, and those protections never materialized. The mass murders of our people by masses of colonizers continued as they do today. Unlearning all of the lies and mis-education told and taught to us by United States over the centuries, is proving to be a near impossible task, as the lies and mis-education of my people continue today in our childrens' schools and in the media. This keeps the majority of our people in a perpetually ignorant and powerless state, unable to focus, organize, or unite. The first version of this letter was mailed to the Secretary-General in June, however it never arrived.

The Moorish Republic of North America

The international recognition of our Moorish nationality, the Moorish Republic government, and the territory of the Moorish Republic would give our people a point of focus, allowing us to better combat the lies, ignorance and mis-education, as well as, protect ourselves from United States and the colonial united states, unite, organize and prepare for U.N. membership.

In spite of our anxious willingness to enter the World stage, we who have formed the provisional government for the Moorish Republic and those who support it, fully and thoroughly understand and comprehend the destructive ramifications and chaos that would ensue, domestically and throughout the World, with a sudden public announcement of the recognition of Moorish nationality and the Moorish Republic. We also comprehend that we must, temporarily work with United States and the colonial united states of America in order to maintain order.

For this reason, we understand that this is a very sensitive situation, and that an abundance of tact must be employed to proceed peacefully as we can, as a fledgling nation. I have included our Declaration of Nationality and Independence. I look forward to your reply.

Sincerely,

Menes Ankh El
